Emperor and Two Ministers Stoutly Resist Demands of Japan.

MINISTERS WHO AGREE ORDERED ASSASSINATED

Demonstration by Japanese Troops Thus Far Preserves Order.

SECUL. Nov. 18 - (Delayed in transmission)-The conference of nearly a week etween the Japanese envoys headed by Marquis Ito, and the Korean cabinet, onded yesterday, and was followed early this morning by a nine-hours' sitting at

#### Cabinet Finally Yields.

At the begining of today's session Baron Hayashi declared his determination not to withdraw until the four demands made by Marquis Ito were signed. The suspense was ended at 1:30 o'clock this morning when the cabinet, with the exception of the Minister of Agriculture and Minister of Foreign Affairs Pakchisun, having yielded, sent for the imperial seals, and signed the desired agreement. The four Japanese demands were as follows: Four Japanese Demands.

First—The appointment of a Japanese administration to govern Korea under the Emperor.
Second—The appointment of Japanese administrators at all treaty ports.
Third—The transfer of Korean diplomatic affairs to Tokio.
Fourth—No arrangements to be made with powers without the consent of Japan.

Soldiers on Guard.

Soldiers on Guard.

Three thousand Japanese soldiers maintained a demonstration all yesterday on the Esplanade before the old palace. Japanese troops patroled the streets all night. The Emperor's palace was also surrounded with troops and Japanese soldiers and police were lodged in the grounds of the palace.

Minister Pakchisun and the Minister of Agriculture continue to hold out with the Emperor against the action of the Japanese.

Affront His Ancestors.

Affront His Ancestors.

Minister Pakchisun, in leading the op-position against the signing of the de-mands of Marquis Ito, adjured the Em-peror with the most powerful argument possible to a superstitious, benighted sov-creign namely, that his consent would affront and outrage all the spirits of his insertial ancestors. imperial ancestors.

After the refusal of the Emperor to return the first visit of Marquis Ito, the Marquis remained in the background.

Conference Is Violent.

The conference between Baron Hayashi and the Korean Cabinet, which led to an greement, began yesterday morning at the Japanese legation and was so viothe Japanese legation and was so vio-lent as to attract attention on adjacent streets. It resulted in Pakchisun and the Minister of Agriculture dramatically denouncing the proceedings and with-grawing to the palace, where they se-cluded themselves with the Emperor.

Orders Ministers Assassinated.

The Emperor then ordered that the Min-biters who consented to the Japanese de-mands be assassinated. After the signa-tures and seals were attached the Jap-lanese military paraded through the city. Baron Hayashi, after securing the con-sent of the majority of the Cabinet, went from the legation to the palace, where he attempted to convince the Emperor and the two remaining Ministers of the justice of his mission, but failed. He toen secured the seals through the other Ministers.

Emperor Takes Alarm.

The Emperor took alarm at the contents and tone of Marquis Ito's credentials when they were presented to him
or the 10th instant, the day after the arrival of the Marquis. His alarm wes
increased because the Japanese sought to
have the Marquis occupy the Emperor's
audience chambers and there receive a
return visit from the Emperor, who resisted, feigning sickness. It required five
days to arrange an interview regarding
the mission of Marquis Ito, and then a
confidential interview was had at which
the Emperor referred the entire matter to
his Cabinet.

Ministry Has Missensed

Ministry Has Mismanaged.

It is stated among diplomats that the Korean Ministry has steadily mismanaged this final event in subverting Korean sovereignty, which was an inevitable sequel to the proposals of February and September, 1904.

It is said that though entitled by treaty to a dignified appeal to the good offices of American and other powers, to assist in the rectification of alleged Japanese injustices, the Ministers preferred fruit-

njustices, the Ministers preferred fruit-

### Secret Agents Abroad.

It is said that at the present moment the throne has three secret agents abroad for the purpose of securing intervention. One of them is in China, the second is Yiyongik, who is in France, and Mr. Hurlburn is now in America with \$400

Conflict Expected.

A conflict between civil and military authorities is now expected and Minister Hayashi, has already sent a strong cir-cular to the Japanese Consuls in Korea to administer justice impartially.

Reported Ministers Bribed

After the presentation of the Mikado's sifts to the court, it is reported that substantial sums of money were used for the purpose of satisfying the Ministers who consented to the Japanese demands. About 30,000 Japanese soldiers, billeted on the people, or in barracks, are at the service of the Japanese, but no disturbances are expected.

Foreigners Take No Bort Foreigners Take No Part.

Foreign officials took no part in the above events, though last midnight, when an alarm was spread that the Japanese night use force, it was believed that the American legation adjoining the palace, might become a temporary refuse for the Emperor. The court and Cabinet are still closely guarded and protected.

#### ROBBER SHOT DEAD

Mill Watchman Has Deadly Encounter With Flour Thief.

PORTLAND, Or., Nov. 19.—A special to the Oregonian from The Dalles, Or., states that Charles Jones, caught in the act of robbing the Dismond Milling company of flour tonight, resisted and had all but overcome Ralph Gloon, the watchman, when the latter, succeeding in wrenching the revolver from his pocket, shot Jones to death.

Jones was a mill laborer and lived at The Dalles.

#### STATISTICS OF WEDDINGS

More Marrying in Great Britain Than Any Other Country.

LONDON, Nov. 19.-The women of the many chances of being married as the women of any other nation in Europe. This is one of the many remarkable facts shown in the annual statistical abstract for the principal nations of the world. The periods covered by the figures is from 1833 to 1903. In each of these ten years there have been fourteen or sixteen marriages per 1900 of the population in Great Britain, while in other countries the rate has steadily remained at between seven and eight per 1000.

The Blue Book, it is true, gives a rate of 15.1 for 1903, but this is obviously an error, for during the nine other years of the period the rate has been invariably a fraction below eight per 1000, and the actual number of marriages in 1903 show that the rate must have been about the same as in previous years.

Colored Baptists Hold Rally and Secure One Hundred Fifty Dollars.

At the close of their rally, held yesterday afternoon and evening, the colored Emptists of Salt Lake announced that \$153.65 had been raised toward paying the debt that threatened to take from them their house of worship, and with this substantial encouragement it is now believed that the entire obligation will be wiped out.

Interesting Service.

Interesting Service.

Both services were interesting and were strended by numerous white friends, who were cordually welcomed by the Rev. Lee A. Brown, pastor of the Calvary church. After a special programme of music recitations, essays and short talks by numerous members during the afternoon, the Rev. E. S. Walker of the East Side Baptist church delivered a forcible and elequent address, of which the central thought was: "Hays you done your best?"

Old-Time Singing.

One feature of the evening which attracted many was the promised singing of the old-time darky camp meeting sengs. Only one of the singers, "Uncle" Grundy Head, was present and the younger members of the church were not familiar with the melodies. The choir, however, furnished some good music and the programme generally was of interest.

Dr. Brown Preached. The Rev. D. A. Brown of the First Bap-tist church gave an earnest, clear out, heart to heart talk that was deeply ap-preciated. Dr. Brown assisted the col-ored people in the organization of their first religious society here and takes a deep interest in their work. At the con-clusion of his address the work of rais-ing the cash was begun in dead earnest.

Then the Gold Leaf and Silver Leaf clubs, organizations between which there is a strong, good-natured rivairy, got busy and the leaders of both pleaded eloquently with the audience for cash. That their efforts were successful is shown by the total of the amount raised.

Beggars His Prey.

Beggars His Prey.

"These are the only two I have ever killed," he said plaintively at the conclusion of his trial. And then he confessed to his thefre. He began his career with the hypothesis that every beggar is an impostor—and generally a prosperous one. He made his mame in Cainis and studied the movements of the beggars. He noted those who were possessed of wealth and robbed them in their rooms. Everard carried out his thefts in the most bare-faced fashion, knowing well that his victims could not obtain redress from the police without exposing their own frauds.

Two Offered Resistance.

He prospered. The beggars offered him a handsome share of their taking to eave them unmolested, but he preferred his own method. At last two of them differed violent resistance, and he was compelled to put an end to their career and thereby his own.

The alternative was presented of closing the cashos or having receivers appointed under the law which provides that the State may take the property of that the State may take the property of voluntary corporations, where the law is being violated and order its sale and enjoin the corporation from pursuing the business. The French Lick Hotel company and the West Baden Hotel company, were both incorporated under the voluntary association act.

### Law Provides a Way.

A subsequent law provides that the Auditor of State, if he has reason to believe that a corporation organized under this act is violating the law, may order an investigation and, if this action is justified by facts, may bring suit in ouster and ask that the corporation's property be sold and the business wound up. Gov. Places Are Notorious. With the closing of these gambling-houses there will pass from Indiana two places that are as well known as the great gambling-houses of Saratoga. It can be said to their credit that there never has been a crooked deal in either of them. The play at West Baden for several years has averaged \$2.00,000 annually. The play at French Lick has not been so great, though it was more than \$1,000,000 a year.

Both casinos were started as amusement places for the guests of the two hotels and as the business of the hotels in-creased the play at the casinos became larger. For several years Al Brown of Indianapolls was the lessee of the French Lick casino, but a few months ago he sold his interest to Ed Ballard, the prin-cipal owner of the West Baden casino.

May Change Plans.

It is not known how much Mr. Ballard paid Mr. Brown, but it is said to have been close to \$22,900. Brown purchased a small hotel at French Lick, and he proposes to enlarge his purchase and add to it a gambling establishment equal in size to anything there. Now it is likely that the determination of Gov. Hanly to stamp out gambling in the valley will cause Brown to change his plans. Kentucky Town Fireswept. Relates Some Incidents.

The doctor said he did not think it inherently absurd to suppose the spirits may commune with us through our senses. He then related in detail some incidents out of the thousands that had been brought to his attention. One was that told by an eminent physician of this city, whose veracity he pronounced beyond question. This physician was alone in Florida and was attacked with paralysis, from which he expected to die. He finally became unconsclous, but feit himself wholly free from pain. He wondered if that was death, and thought of a friend a thousand miles distant. At once he seemed to be in the home of that friend and heard the conversation of the family. He tried to speak to them, but could not attract their attention. Suddenly his friends eyes were riveted upon him, and the two conversed, the friend being much surprised at his presence there.

Then the physician heard a voice saying if his work was not done he could return to earth. He reasoned over the matter and concluded that his work was not done. At once he found himself in his own bed chamber looking at his own corpse. By a supreme effort of will be re-entered his body and found that the whole night had passed since he became unconscious. Dr. Funk continued "That same morning that friend wrote that physician a letter telling him that he had had a strange experience the night before; that he had seen the physician in his room as clearly as he had ever seen him before, and that in astonishment he had said to the physician "Why. Doctor, are you here? I thought you were in Florida. But as I approached to grasp your hand you disappeared. I greatly fear some misfortune has happened you"."

Impersonated a Ghost.

"Again and again in my investigations in the semi-dark I have seen a strong in the semi-dark I have seen a strong man greet a womanly, ghost-like form and arm in arm lead ner around the circle, introducing her as his departed wife. Afterwards, in at least one in-stance, I have laid the confederate con-fess to me that she had personated the ghost; but no manner of proof on my part was sufficient to disillusionize that husband."
